

Mental Health and Addiction Transformation Update

Plans for a New Direction
September 11, 2007

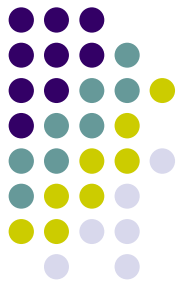

Continue and Support Major Phase 1 Initiatives

- Consumer and Family Involvement – Focused efforts on Peer Support Certification and consumer and family involvement
- Results Management – Create ongoing infrastructure to manage the Consumer Service Review (CSR) Process
- Relationship Management – Continue 3 year process of performance-based contracting
- Finance and Operations – Redesign a community financing model with implementation in January, 2009

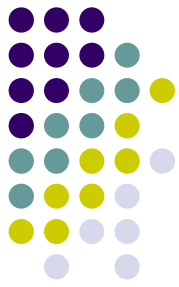

Develop Strategies for Cross Agency Initiatives

Five priority areas require cross-agency work to achieve a “transformed” system for persons with mental illness and/or addiction:

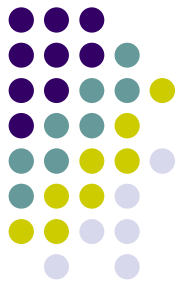

- Forensics
- Health/Behavioral Health Integration
- Prevention/Early Intervention
- Consumer Employment
- Supported Housing

Develop Long Range Strategies & Short Term Activities

The common charge for each area would be:

- Develop a clear statement of Indiana's "best practice" model for each area
- Assess Indiana's current capacity as compared to identified need
- Identify barriers to full implementation
- Recommend strategies for implementation
- Identify short-term opportunities/actions while developing long range strategies

Leadership and Support

Leadership and Support is required for each priority area:

- Key stakeholders will need to provide leadership and resources
- Specific commitments of time will be required to complete both short and long term plans

Priority Area - Forensics

Goal 1: Crisis Intervention Teams

- Provide statewide training, expansion and participation

Goal 2: Community Diversion

- Implement statewide community diversion programs

Goal 3: Treatment in Jails and Prisons

- Require jails and DOC to provide quality mental health and addiction services

Priority Area - Forensics

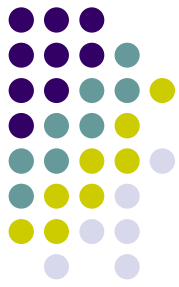

Goal 4: Re-entry Programs

- Assure access to mental health and addiction treatment to offenders in the re-entry program

Goal 5: Medicaid Eligibility

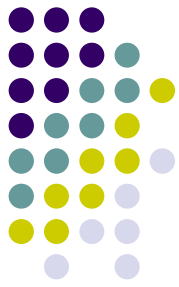

- Ensure Medicaid eligibility upon re-entry for offenders with mental illness who qualify for disability status

Priority Area – Health/Behavioral Health Integration

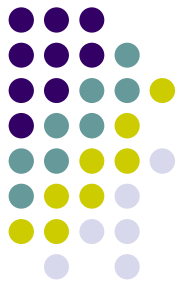

- Goal: Make primary health services available to individuals with serious mental illness as well as insert behavioral health services into primary health care settings
- Pilots
 - Center for Mental Health - Riverview
 - Porter-Starke Services - Hilltop

Priority Area – Prevention/Early Intervention

- Goal: Integrate mental health into prevention efforts
- Build upon local prevention infrastructure – local coordinating councils – as basis for planning

Priority Area – Consumer Employment

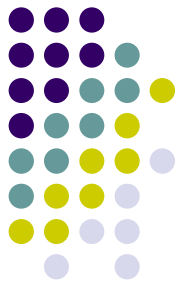

- Goal: Evaluate new models (e.g. Affirmative Businesses) for the development of meaningful jobs for consumers

Priority Area – Supported Housing

- Goal: Maximize and leverage funding streams – federal, state, local, private – to secure or create supportive housing for consumers
- Partner with the Indiana Housing and Community Development Office
- Work with local CMHC's and housing regions toward creating housing teams
- Collaborate with the new Corporation for Supported Housing (CSH) staff position in IN

Timeline

- By October, for each goal a selected person will do the following:
 - Develop a clear statement of Indiana's "best practice" model for each goal
 - Identify short-term opportunities/actions
- By February, 2008, for each goal the person will draft a long range strategy
 - Assess Indiana's current capacity as compared to identified need
 - Identify barriers to full implementation
 - Recommend strategies for implementation
